

# 55.G2 Divertor thermocouples

Functional breakdown

M.Salmic

# Outline

- ☐ Signal chain
- ☐ FPGA functions
- ☐ Configuration objects
- ☐ CODAC communication
- ☐ Compliance matrix

### 01 Global (GLB)

-  + 0101 PBS 47 Plasma Control System (PCS)
-  + 0102 PBS 26 Cooling Water System (CWS)

### 02 Data Acquisition (DAQ)

-  + 0202 Analog to Digital Conversion (ADC)

### 03 Data Processing (DPC)

-  + 0301 Measurement (MES)
-  + 0303 Statistics (STA)
-  + 0304 Control (CTR)

### 04 System Management (SYS)

-  + 0401 Cubicles (CUB)
-  + 0402 Fast Controller CPU (PCF)
-  + 0403 Fast Controller IO Chassis – cRIO (PXI)
-  + 0404 Fast Controller IO Boards (FIO)

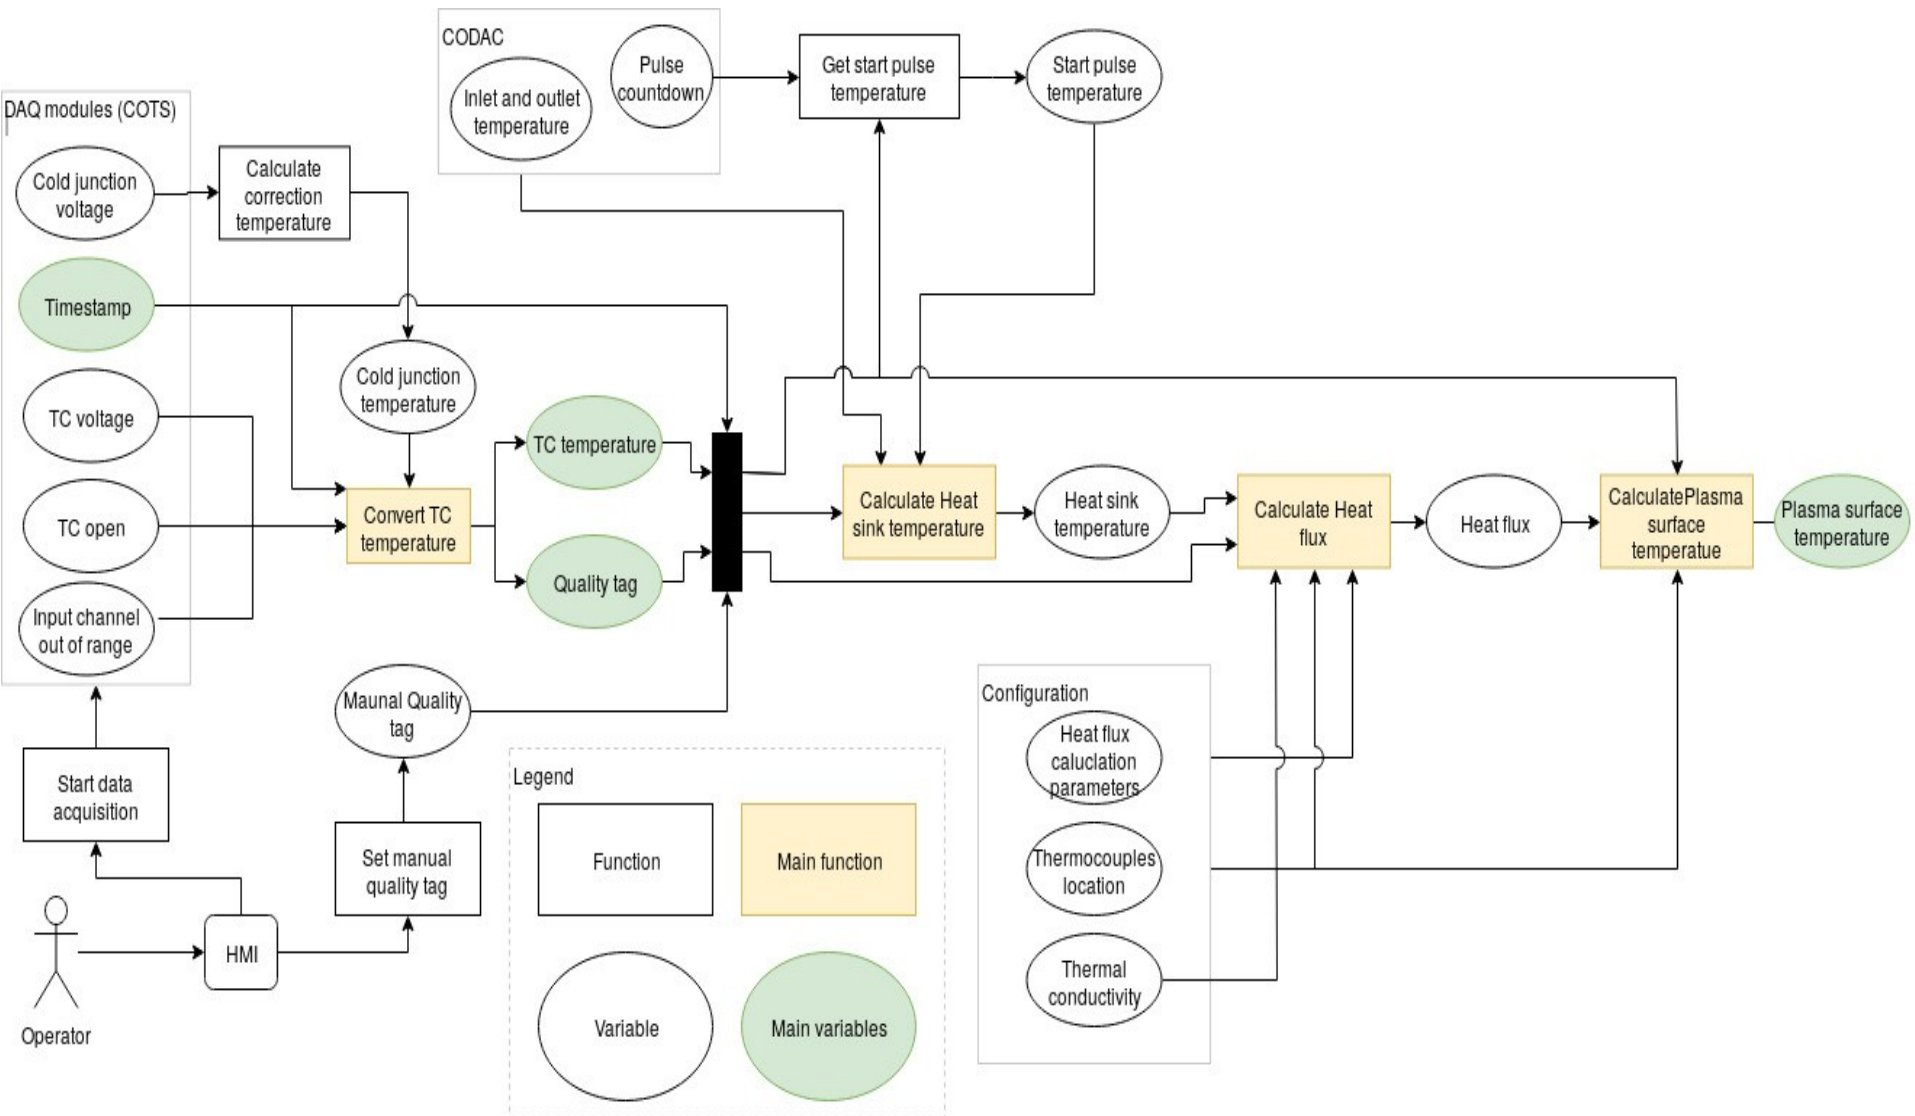

### 05 Operations (OPR)

-  + 0501 Automation (AUT)
-  + 0502 Initialization (INT)
-  + 0503 Configuration (CFG)

### 08 Interfaces (INF)

-  + 0801 DAN (DN)
-  + 0802 SDN (SN)
-  + 0803 TCN (TN)
-  + 0804 PON (PN)
-  + 0805 HMI (HM)
-  + 0806 PCIe (PC)

## 4 Signal chain

- ❑ Communication with DAQ modules
  - TC voltage
  - CJC voltage
  - Open TC
  - Channel out of range
  - Module properties
  - Conversion time configuration
- ❑ Timestamping
  - Acquiring value from DAQ modules
  - Attaching a timestamp
  - Clock

## Configuration objects

- ☐ Heat flux parameters (set during commissioning)
- ☐ Thermocouples location (set during commissioning)
- ☐ Sampling rates
  - During pulses
  - Between pulses
- ☐ Start temperature limit
- ☐ Thermal conductivity
- ☐ Connectivity configuration
  - IP addresses, buffers, ports

## ☐ PCS

- Thermocouple temperature
- Plasma surface temperature
  - Temperature
  - Timestamp
  - Quality tag
- Timing
  - ITER time synchronization
  - Pulse start countdown

## ☐ Cooling water system

- Heatsink inlet temperature
- Heatsink outlet temperature

- ☐ Most system specific requirements are covered by data acquisition and processing functions
- ☐ Most of the common PCDH requirements are covered by Operations and System management functions
- ☐ Because some of the requirements are so vague they can be covered by either any function or in other case by none.
- ☐ For the FDR this will have to be resolved
